SECOND SYMPOSIUM

HUMAN-CENTRED ARTIFICIAL INTELLIGENCE

4th & 5th NOVEMBER

Otto-von-Guericke-Zentrum
Lukasklause
Schleinufer 1, 39104 Magdeburg

OTTO VON GUERICKE UNIVERSITÄT MAGDEBURG — FACULTY OF COMPUTER SCIENCE

LEIBNIZ-INSTITUT FÜR BILDUNGSMEDIEN | Georg-Eckert-Institut

HAI Human-Centred Artificial Intelligence Group

HCAI FEATURES

Human-Centred Artificial Intelligence (HCAI) emphasizes the design and implementation of AI systems that prioritize human needs, ethics, and values in the following ways:

- Creating AI systems that work alongside humans, improving our abilities, rather than replacing us

- Commitment to develop AI that is fair, transparent and accountable, incorporating ethical practices in every aspect of design and implementation

- Prioritize user needs through intuitive and accessible technologies, making AI decisions understandable to build trust

- Developing AI that benefits society by addressing broader ethical considerations
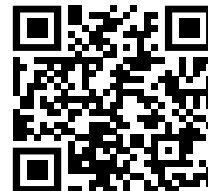

WHY HCAI?

Because AI Should Serve People, Not the Other Way Around

- **Enhancing Daily Life** with systems that are helpful, reliable and respectful
- **Building Trust** ensuring transparency to foster confidence in AI technologies
- **Ethical Innovation** promoting responsible AI to benefit everyone

HCAI SYMPOSIUM SERIES

Join us on November 4-5, 2024, at the Otto-von-Guericke-Zentrum Lukasklause, for a groundbreaking event. The Human-Centred Artificial Intelligence Symposium Series (HCAI@OVGU) bring together experts from academia and industry to explore key topics like Responsible AI, Explainable AI, Ethics and Fairness.

ABOUT US

We are the **Human-Centred Artificial Intelligence Research Group** led by Prof. Dr.-Ing Ernesto W. De Luca . Our team is passionate about creating AI technologies that amplify, augment and enhance human abilities rather than replace them.

Website: hcai.ovgu.de

OUR MISSION

Advancing Human-Centred AI for a Better Future.

We strive to:

Spark Meaningful Conversation

Educate and Inspire

Building Lasting Networks

Catalyze Innovation
